

Dynamic Manufacturing Solutions Announces the Release of MxSuite

Edmonton, Alberta, Canada – May 29, 2013

Dynamic Manufacturing Solutions (DMS), a leading provider of Microsoft Enterprise Resource Planning (ERP) software, is proud to announce they have secured an agreement with Honeywell to maintain, support, and extend Honeywell's Manufacturing Execution Software, MxSuite. Honeywell's MxSuite will be rebranded as DMS MxSuite to reflect DMS' expansion of the product to meet the needs of current and future customers.

DMS MxSuite is an advanced planning and scheduling solution designed for manufacturing firms that struggle with daily changes in priorities, resources, and operating conditions that simultaneously need to overcome scheduling constraints. DMS MxSuite provides the agility needed to respond to these changing market demands in real-time, while improving operating efficiencies, maximizing profit margins and improving customer satisfaction with the ability to promise accurate delivery dates.

Numerous leading automotive manufacturers, tier one suppliers, and other manufacturers have successfully implemented MxSuite to improve efficiencies and reduce costs. As part of DMS's commitment to the product, it will be tightly integrated with Microsoft Dynamics ERP and other leading solutions.

DMS President Mark Hamblin states "We're very pleased to be able to offer this mature and proven product line, along with our deep manufacturing expertise to the manufacturing industry. We are committed to provide the Microsoft Dynamics community with tools they have not had access to in the past."

About Dynamic Manufacturing Solutions (DMS):

DMS works primarily in the manufacturing, warehousing, and distribution industries to deliver Microsoft ERP solutions, IT Infrastructure, and custom software development. DMS is focused on helping clients realize higher levels of operational efficiency, from the shop floor to the front office. We provide our clients a full range of services and solutions to ensure that all aspects of a project are fully coordinated and executed smoothly.

About Honeywell:

Honeywell is a Fortune 100 company that invents and manufactures technologies to address some of the world's toughest challenges linked to global macro trends such as energy efficiency, clean energy generation, safety and security, globalization and customer productivity. With approximately 132,000 employees worldwide, including more than 22,000 engineers and scientists, we have an unrelenting focus on performance, quality, delivery, value and technology in everything we make and do.
