## NEW MEDICAL DEVICE CLIENTS FOR AXOQCS™: RAPID SELF TEST INC. AND BODY HEAT PADS INC.

AXOQCS™ is a complete business solution developed for Microsoft Dynamics AX that provides quality and compliance functionality for companies in the life sciences industry

**Milton, Ontario – (April 15, 2016):** AXSource® Global, the leading Microsoft Dynamics™ Partner in North America, is pleased to announce two new medical device clients, Rapid Self Test Inc. and Body Heat Pads Inc., for their recently launched solution, AXOQCS™.

AXOQCS™ is Microsoft Dynamics AX (ERP) based ISV Solution, designed and developed by our in-house regulatory experts to ensure compliance with the FDA's Quality System Regulations, Health Canada Medical Device Regulations, as well global good manufacturing practices (GMP) for drug products.

It acts as an add-on to the Microsoft Dynamics AX™ ERP and streamlines not only production but quality management through features like Electronic Batch Records, Enhanced Electronic Signatures, Recall Management, Corrective Actions and Preventative Actions (CAPA), and Computer System Validation (CSV). AXOQCS™ is a paperless validated solution for ERP that simplifies and implements mandatory regulatory practices ready-to-use for quality management and quality improvement initiatives.
